## **Dyrand Systems Managed Network Service Selected By The Greater Vancouver Food Bank**

**Vancouver, BC — May 22, 2003** Dyrand Systems Inc, a provider of subscription computing services, today announced that The Greater Vancouver Food Bank selected Dyrand System's Managed Network Service for its complete IT support requirements.

*“It did not make sense financially to hire a full-time IT person and that's where Dyrand Systems' Managed Network Service came in. Prior to hiring Dyrand, we experienced a complete network failure, which cost us a significant amount of money, not to mention frustration. We now have Dyrand proactively monitoring our systems 24 hours a day and providing us with a full-time IT support helpdesk, all at a cost less expensive than our previous setup. Switching to a structured IT support system provided by Dyrand has definitely been a great choice for the Greater Vancouver Food Bank and we would highly recommend them to any organization.”* said Cheryl Prepchuk, Director of the Food Bank.

Dyrand's Managed Network Service provides a company with all the benefits of a full-time IT department, usually for less than half the cost of a single employee. The service is available in a variety of packages and starts from as little as \$300/month.

### **ABOUT THE GREATER VANCOUVER FOOD BANK**

The Greater Vancouver Food Bank Society provides food to 25,000 people in need each week. Each week up to 9,000 individuals receive 3-4 day food supplements from one of our 18 distribution depots. Almost 1/3 of our recipients are children and 40% are families. They offer food support to 100 meal providing agencies, creating 16,000 meals each week. By partnering with agencies we help fulfill our mandate while assisting them in building healthy communities.

### **ABOUT DYRAND SYSTEMS**

Dyrand Systems is a premier solution provider offering a full range of secure business solutions for enterprise, e-business, mobile, as well as managed security services.
