

**For Immediate Release**

## **Dyrand Systems Managed Network Service Selected By Salvador Davis & Co**

**Vancouver, BC — May 7, 2004** Dyrand Systems Inc, a provider of managed network & security services, announced today that Salvador Davis & Co of BC has selected Dyrand System's Managed Network Service for its complete IT support requirements.

*"We have a very busy practice and we were chronically impaired by computer glitches. We would often loose days of work product and files when one of the computers went sideways. Besides the frustration we were loosing valuable time and resources waiting for technicians and new equipment. Since we got onboard with Dyrand Systems we have not lost a single hour of down time. Dyrand's team are quick to respond to any questions or concerns we may have and we feel that the cost of their service is money well spent. We don't have to worry about viruses, down time, or loss of productivity. We can just get on with what we do best and count on Dyrand to worry about our computer systems." says Laurie Salvador, Partner, Salvador Davis & Co.*

Dyrand's Managed Network Service provides small and medium sized companies with all the benefits of a full-time IT department for less than the cost of a single employee. The service is available in a variety of packages and starts from as little as \$99/month.

### **ABOUT SALVADOR DAVIS & CO**
